Thank you for your interest in our direct deposit (ACH) program. Direct deposit is a safe and easy way for you to handle your transactions electronically. ACH allows a company or organization to electronically deposit to, or withdraw money from, your credit union account on a scheduled basis. So instead of taking the time to write or cash a check yourself, the payment or withdrawal will automatically be made on the scheduled date. It's that simple!

Deposits

If you would like to have funds electronically deposited into your credit union account, give your payroll department or financial institution the information at the bottom of this page. Please note that the financial institution must have the capability of originating ACH transactions.

If the direct deposit is coming from a government agency, such as Social Security, you can call 800-772-1213 and request that your funds be sent direct deposit.

Withdrawals

If you would like to have funds electronically withdrawn from your credit union account for a mortgage payment, insurance payment, utility bill, mutual fund investment, etc., contact the company originating the withdrawal and give them the information at the bottom of this page.

If you have any further questions, please call us at 763-569-4000 or toll-free at 800-252-4239.
